WHY DUGGAN MECHANICAL SERVICES?

Duggan Mechanical Services offers expert plumbing, sprinkler, hvac and water treatment services, focusing on maintenance and repair for commercial, residential, and industrial projects. We ensure reliable and efficient solutions tailored to the unique needs of our clients.

SECTORS OF SERVICE

DMS delivers safe, reliable mechanical systems for hospitals and care facilities—built to support patient care and meet strict health standards.

From high-rises to mixed-use housing, DMS designs efficient systems that bring comfort and performance to every living space.

DMS powers offices and retail spaces with smart, scalable systems built for flexibility, efficiency, and long-term value.

We create healthy, energy-efficient environments for schools and campuses—supporting students, staff, and sustainability goals.
