PROCESS

1

Zepplug Installs EV Infrastructure at No Cost

Zero Investment and zero cost for the property owner. All meters, switchgears, and routers are included!

2

Users Download the App & Start to Charge

Zero management or user billing needs to be done by the property manager. We'll cover all administrative tasks!

3

Zepplug Provides Maintenance & Support

Our support partners will take care of all maintenance issues, and will also provide 24/7 end user support.

BENEFITS

NO MAINTENANCE

Zepplug covers all ongoing maintenance costs and responsibilities. Zepplug chargers undergo annual maintenance inspections and any issue will be addressed within 24 hours by our maintenance partners.

ADDS VALUE

Having EV charging onsite boosts your property value, gives your business a competitive advantage, establishes your business as a leader in sustainability, and improves tenant, employee, and visitor satisfaction

ENVIRONMENTALLY FRIENDLY

Installing EVSE helps reduce carbon emissions, encourages EV adoption, enhances social and environmental responsibility, and promotes sustainability.
