## ***In Business, Reputation is Everything***

Braman Termite & Pest Elimination is a family owned and operated business that has been serving a wide variety of commercial customers throughout New England since 1890.

We owe our good reputation to **our comprehensive scientific knowledge of bugs and pests and our commitment to customer service.**

Our staff of service professionals is exceptionally well-trained; a number have degrees in entomology or biology. They know pests' habits and how to get rid of them safely and effectively.

They also know that serving a customer well means responding quickly, communicating clearly, and eliminating pests efficiently and economically.

**Keep your business pest-free. Call the Licensed, certified and insured Braman Experts at 800-338-6757.**

## ***Braman Protects Your Brand***

At Braman, eliminating pests is our business — the only business we have been in for over 100 years.

Whatever business you're in, we will keep it safe, sanitary, and pest-free — so you can keep your customers coming back and your employees happy.

Our range of services and products include:

- Expert inspection, identification, and consultation
- Integrated pest management programs (IPM)
- One-time treatments and ongoing programs
- ASI, AIB, USDA, NOP and FDA mandated programs
- LEED® compliant programs
- Nuisance wildlife control
- Bird management
- Termite elimination
- Mosquito control
- Industrial weed control
- Fly control and bioremediation

**The health and safety of you, your customers and employees is first and foremost to the pest professionals at Braman.**

## ***Braman Online Customer Portal***

For over a century, Braman has been eliminating pests in all types of commercial and industrial settings with old-fashioned diligence but to stay on top you must keep up with the times, so in 2013 we introduced our Premier Customer Portal. Bar code scanning of equipment enables:

- 24/7/365 access to service reports, pest trend reports, material application records, equipment location maps and sanitation or structural deficiencies
- view past and upcoming service information
- schedule service
- sign up for and customize email alerts (you will be able to define preferences and be notified about issues of the greatest importance to you)
- manage your user log-in information. Commercial customers are able to set their portal to give a full or limited use to managers, franchisees, inspectors or employees
- access your billing and payment history
- make secure online bill payments
