

Client satisfaction is our #1 goal.

“BRS has performed sophisticated repairs for a number of our clients and has consistently done so while satisfying even the most discerning Boards, Unit Owners and Property Managers.

At the end of the day, I consistently find that BRS provides our clients with a tremendous value and, as we know, value is even more important during the economic challenges of the present.”

*~Douglas G Thayer, CPM
Thayer & Associates, Inc.*

“BRS completed the Charlesgate Waterproofing and Restoration project on time and on budget. Their team of tradesmen were professional, knowledgeable and courteous.

I would recommend them for any of your restoration needs.”

*~Barry Quinlan
The Copley Group*

“BRS was able to save Dartmouth Square Condominiums hundreds of thousands of dollars through value engineering. They worked closely with the engineers to provide cost saving alternatives to the proposed scope of work. They were service driven from the day they stepped on the job and completed the project on time. I would highly recommend BRS for any of your restoration projects.”
