FULL SERVICE ROOFING: DESIGN | MAINTENANCE REPAIR | GREEN | SOLAR

Eagle Rivet provides commercial, residential, and institutional roof services, including: new roof and re-roof installations, survey and evaluation of existing roof conditions, waterproofing, low slope and steep slope systems, architectural sheet metal work and 365/24/7 emergency services (including leak repair and snow removal).

We install a variety of Roofing Systems including:

- Built-Up Roofing
- EPDM Roofing
- Modified Bitumen
- Thermoplastic (TPO, PVC)
- Shingle and Slate
- Standing Seam Metal

We are Manufacturer Certified to install all of the above roofing systems.

Preventive Maintenance is Key

Our Maintenance Programs will protect your valuable investment. Services offered include preventive maintenance programs, expert leak detection and repair, roof inspection, troubleshooting, and snow and ice removal. We have technicians solely dedicated to repair, maintenance, and on-call emergency services. Please contact us for details regarding these cost-saving programs.

Maintenance Programs may Include:

- Semi-Annual Inspections
- Cleaning/Clearing of roof drainage systems
- Inspection of all Flashings
- Inspection of all roof surfaces
- Inspection of all areas surrounding any rooftop unit
- Comprehensive roof condition recommendations

We Aim To Locate Problems Before They Start

CASE STUDIES

For almost a century, Eagle Rivet Roof Service Corporation has been installing roofs throughout New England. Whether its a complex commercial roof or a simple residential installation, every customer receives the full benefit of our roofing expertise. Here are a few projects we're particularly proud of:

The Brown House - Avon Old Farms

This enormous brownstone was in need of a new roof, and Eagle Rivet delivered by installing synthetic tile. Only the best fixtures were requested, and we were happy to oblige, with premium, copper Alpine Snow Guards, as well as copper flashing and gutters. These fixtures will not only keep the building safe - they look good, and will accumulate a beautiful vintage patina as they age.

Tisch Fieldhouse - Suffield Academy

This project for an exclusive Connecticut boarding school, involved weatherproofing the roof using a patina-green Sarnafil PVC roofing membrane. Eagle Rivet performed the work on time and on budget. Contracted by FIP Construction.

Loomis Chaffee School - Mason Hall

This elite boarding school needed a sturdy new roof for its Mason Hall dormitory, and Eagle Rivet was the obvious choice to build it. For a building with so much history and character, slate and standing-seam copper roofs were chosen. We removed the existing slate, and re-roofed the building with high-end Evergreen brand slate from Vermont. We also installed premium copper Alpine Snow Guards, as well as copper flashing and gutters. The photo on this page show a detail of a snow guard, and the standing-seam roof over a dormer window, as it ties into the slate portion of the roof with copper flashing.

Vista Mar - Miami, Florida

Vista Mar Apartments is a luxury 110-unit housing complex. It features high-end amenities and roof-top facilities. For this 11,000 square foot project, Eagle Rivet installed Firestone TPO membrane fully adhered to Lightweight Insulating Concrete.

About Us

Eagle Rivet Roof Service Corporation is an independently-owned, full service roofing company. We date back to the founding of Eagle Sheet Metal Works in 1919. Eagle Rivet was formed in 2002 by adding the talent of J.D. Rivet of Springfield, MA. J.D. Rivet is a full service roofing and sheet metal company that was started in 1960. This combination has resulted in a roofing company with the flexibility and resources to service all of New England.

Since 1919, our craftsmanship has withstood the scrutiny of thousands of satisfied customers and the test of time. Our knowledge of materials, expert ability to install and maintain them, and outstanding project management skills, have created a stellar reputation that we are very proud to uphold.

**Most importantly we not only stand behind our work ...
but we will stand under it as well!**

Eagle Rivet has not just installed thousands of high-performance roof systems with the utmost attention to detail, we have given our customers the secure feeling of knowing that their largest asset is protected.
